Summary

I'm a frontend developer with expertise in React, Node.js, Express.js, JavaScript, MongoDB, and various CSS frameworks like Tailwind CSS and Bootstrap. I create dynamic and responsive user interfaces, build backend logic, and design appealing web content. My skills enable me to deliver end-to-end web solutions that are visually pleasing, high-performing, and user-centric.

Featured Project

NurAdmin Dashboard

React js React Helmet TailwindCss React Icons
ApexCharts Tailwind Merge

NurAdmin Dashboard is a visually engaging, front-end admin panel built for managing social media platforms. Developed using React.js for seamless user interaction. With optimized components for data visualization and date management. **NurAdmin** ensures an intuitive user experience, making it easy to track, analyze, and manage platform data.

More Challenges

- Components Library
- Interactive Charts
- Theming and Customization
- Optimized checkout process
- Mobile-first design
